

8th Anti-Ageing Skin Care Conference

Skin Health and Ageing Across Life Stages

29 – 30 November 2022, Royal College of Physicians, London

Day One – 29 November 2022

Time		Speaker
08:30	Registration and welcome coffee	
09:00	Opening address	Dr Katerina Steventon
Session 1: The Science of Skin Ageing Across Life Stages		Chair: Dr Katerina Steventon
09:15	Keynote: Inflammaging in human photo-exposed skin: Early onset of senescence and imbalanced epidermal homeostasis across the decades	Dr John Oblong Principal Scientist, Procter & Gamble, US
10.00	Keynote: Skin Microbiome and Ageing	Dr Michael Hoptroff Senior R&D Manager, Unilever, UK
10.45	Networking coffee break	
11.15	To a personalised and inclusive anti-ageing experience: leveraging AI-automated assessment of facial signs and their respective weights on human perception	Dr Frederic Flament Global Head of Claims Science - Evaluation Intelligence at L'Oréal, France
11.45	Ex vivo layer-by-layer analysis of mechanics and microstructure of the ageing dermis	Dr Barbara Lynch L'Oréal Research and Innovation, Advanced Research, France
12.15	DISCUSSION	
12.30	Lunch	
13.30	Keynote: 'The cliff edge: What does the menopause mean for our ageing skin?'	Prof Rachel Watson Professor of Cutaneous Science, University of Manchester, UK
Session 2: New Concepts and Technology Approaches in Functional Skincare		Chair: Dr Oliver Worsley
14.15	Multidirectional activity of bakuchiol against cellular mechanisms of facial ageing: comparison to the gold standard retinol	Dr Anika Blümke, Research Scientist R&D Beiersdorf, Germany
14:45	The future of antioxidant technologies: probiotics and selective post-biotics	Dr Pascal Yvon SVP Commercial strategy and Sales, S-Biomedic, Belgium
15.15	Networking coffee break	
15.45	Menopausal impacts on skin are not inevitable, strategies to reduce signs and discomfort	Dr Richard Leroux Scientific and Technology Manager, Sederma, France
16.15	Anti-ageing strategies – What's next?	Dr Bhaven Chavan Research and Technology Manager Croda Europe Ltd, UK
16:45	Keynote: What does the future hold for the science and technology of aging?	Dr Samantha Samaras Global Vice President Science & Technology, Beauty and Personal Care R&D Unilever, US
17:30	Panel of experts in open discussion on current topics	Chair: Dr Jack Ferguson
18.15	Drinks reception	
19.15	End of first day	

8th Anti-Ageing Skin Care Conference

Day Two – 30 November 2022

Time		Speaker
08:30	Registration and welcome coffee	
Session 3: Consumer Trends, Advertising and Claims		Chair: Dr Katerina Steventon
09:00 – 09:30	Age Progression: Preventative & Reparative Skincare for Every Generation	Deanna Utroske, Beauty Industry Thought Leader, US
09:30	The Evolution of Ageing: What We'll Be Doing in 2032!	Dr Gaby Prinsloo Medical Director, International Institute for Anti-Ageing (iiaa), UK
10:00 – 10:30	Skin as an organ of communication through the aging process: speculations on impact of cosmetic science	Dr Gopi K. Menon, Fellow, California Academy of Sciences Adjunct Associate Professor, U. Cincinnati Honorary member, Centre for Dermal Research, Rutgers University, US
10:30	Networking coffee break	
11:00	Anti-Ageing claims through life: regulatory landscape, innovation, and good practice	Dr Floriana Vincis, Global Claims Manager, No7 Beauty Company, UK
11:30	Changing trends in skincare claims over last two decades and a look to the future	Dr Jack Ferguson Skinnovation Ltd, UK
12.00	Lunch	
Session 4: Assessing the benefits of anti-ageing skincare		Chair: Dr Jack Ferguson
12.45	Dermal Ageing: Assessment of Collagen, Elastin and AGE in vivo	Stephan Bielfeldt proDERM Institute for Applied Dermatological Research GmbH, Germany
13.15	Towards data-driven quantification of skin ageing: micro-sampling and reflectance confocal microscopy	Professor Tarl Prow Director, Skin Research Centre, University of York, UK
13.45	A user-friendly skin microbiome patch to best predict skin age through genomics	Dr Oliver Worsley CEO & Co-Founder Sequential Skin, US/UK
14:15	Skin Analysis: Is the Future Catching Us? The impact of science on consumer decisions.	Professor Mark Birch-Machin, Professor of Molecular Dermatology and Faculty Dean of Business Development, University of Newcastle, UK
14.45	Keynote: Ageing, so what?	Professor Paul Matts Procter & Gamble US/UK
15.30	Concluding remarks and discussion	Dr Katerina Steventon
15:40	Conference closes
